

Client: Broward County, Florida
 Architect: Harper Partners
 Design & Implementation: Image Resource Group

Image Resource Group Scope of Work:

- Technical survey
- Overall product development
- Interactive kiosk design
- Proposed plasma screen and multimedia projection concepts
- Interior wayfinding system design
- Cost feasibility study

Image Resource Group was selected by Harper Partners to support Broward County, Florida's administration group in the upgrading of its existing wayfinding system. Efforts to date have focused on development and deployment strategies including interactive kiosks, plasma screens, multimedia projection systems, and revamping of existing interior wayfinding systems.
